

**BEST PRACTICE- I:**

**Training & Placement of students:** The placement cell takes all pains to get students placed in core companies; and also, if the companies do not come down to Abohar, arrangements are made for students to reach the venues where interviews are scheduled. The college got a total of 83 placements in companies like WIPRO, TCS, CUBIC LOGIC, ACCENTURE, HDFC, IOL and PIZONE, etc. A total of 61 students were placed. It is a matter of immense pride for the college that the number of placements has been increasing by the year.

**BEST PRACTICE- II:**

**Maintaining the maximum number of university positions in academics:** The College ensures that the students attend their classes regularly. The teachers provide every help to the students in their studies by providing them notes and taking their queries. A conducive environment for the teaching-learning process enables the students to stay abreast with their course curriculum. In the academic year 2022-23 also, we have kept up this practice by bagging 101 university positions which is a landmark in itself.
